

How to test your code:

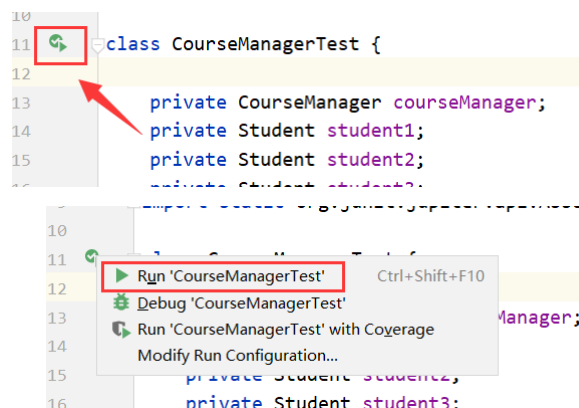

1. Put CourseManagerTest.java to the same directory as CourseManager.java
2. Open CourseManagerTest.java
3. Click red junit①, then click red bulb②. Choose Add 'JUnit5.8.1' to classpath③.

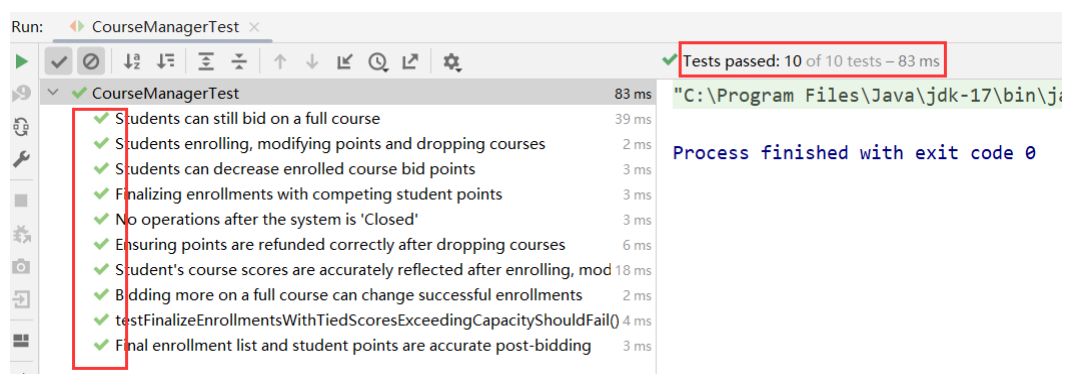

4. Click OK.

5. Click green arrow before "class CourseManagerTest{". And choose Run.

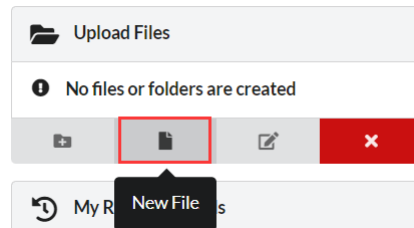

6. You got the running result. Click each test case to see the detail.

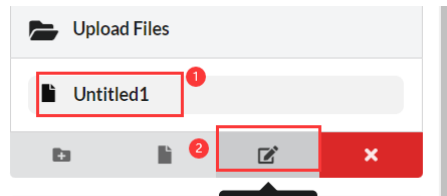

How to submit your code:

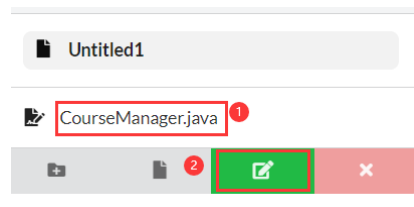

1. Click New File.

2. Choose the new file① and click Rename②.

3. Input the filename①(**must end with .java**), and click Confirm Rename②.

4. Click Code Submission to submit your code.
